

4010 QUINPLEX FOOD GRADE WHITE OILS CP KELCO PHILIPPINES, INC.

Cebu City, Philippines
HYDROVANE AIR COMPRESSOR

A HUBER COMPANY

Customer Profile

CP KELCO, PHILS., INC. is a dynamic hydrocolloid manufacturer specializing in carrageenan, that uses state of the art gel press technology to provide the global food and pharmaceutical industries with high quality ingredients.

Application

They have four units Hydrovane Air Compressors.

Area of Concern

Engr. Alfredo Sebastian, Facility and Equipment Supervisor, was concerned about the motor of the Hydrovane Air compressor. Using SAE Lubricants supplied by the local distributor of the Air compressor, they are experiencing high amperage draw.

LE Solution

LE Representative Virgilio Arias introduced LE 4010 Quinplex Food Grade White Oil. LE 4010 is a USDA H1 and NSF registered lubricant design for superior Anti-wear, rust and oxidation resistant.

Customer Cost Savings

In September, 2005 they began switching over the four units Hydrovane Air Compressor to LE 4010 Quinplex Food Grade White Oil. The problem of higher amperage draw during on and off operation was gone. After 3 months running, LE 4010 did not harden and no sludge formation. The compressor is running smoothly unlike the previous oil, where they experience higher amperage draw and higher temperature.

Other Product Used

- LE 4025 Quinplex Food Grade Lubricant
- LE 4700 Monolec Industrial Lubricant
