And Glue Machine Gearbox (CORRUGATOR Gearboxes)

CUSTOMER TESTIMONIALS

CUSTOMER PROFILE

Stanfilco CCCI is a division of DOLE Philippines Incorporated. As of the moment, it is the largest corrugated box plant in Mindanao. It has a 1-hectare main facility within a sprawling 4-hectare complex. This state-of-the-art box plant serves all the corrugated box packaging requirements of the entire STANFILCO (Banana Division) Packing Plants, and even other multi-national companies like Nestle Philippines Inc. and even their stiffest competitor – Sumitomo Fruits Incorporated.

LE SOLUTION:

After conducting a Lubrication Seminar and LE Product Presentation to the company's key Maintenance Supervisors and Personnel last August of 1999, they ordered 07 pails of LE 605 ALMASOL Vari-Purpose Gear Lubricant (ISO 320 / SAE 90) at 22.7 kgs. Per pail, for the DDK, Double Facer, & Glue Machine Gearboxes monitored thru LE's Spectrowear Analysis to established oil trending and comparison.

CUSTOMER COST SAVINGS:

After 21 months of monitoring temperatures and oil analysis results, oil drain intervals were extended, thereby saving the company PHP 98,000.00 from the cost of lubricants. Longer equipment life and no more costly down time since the equipment operated efficiently, which also yielded more profits to the company.
